

YOU WILL ALWAYS BE A PIECE OF ME

Do you have any old puzzles laying around that house that may be missing pieces or you know you won't do again? Or maybe you have other supplies hanging around that could be repurposed as a craft project. Get creative this week by using alternative craft material to create a unique memorial project.

Consider creating your loved one's initials or name out of puzzle pieces. Simply trace out thick block letters on paper and glue in pieces to fill in the letters. Or, try creating a picture that reminds you of them using different colored puzzle pieces and/or other materials. Creating a memorial project with puzzle pieces can symbolize that although your special person has died, your relationship with them and the impact they had on your life will always be a piece of you.
